BURNER'S WHITE SULPHUR SPRINGS. POWELL'S FORT, SHENANDOAH COUNTY, VA. HE proprietors of these Springt are prepared to re ceive and accommodate visiters. This delightful Wa Letve and accommodate visiters. In a designful wa-oring place is situated eight miles east of Woodstock, be-ween the Fort and Mansanutten Mountains. The new suiding (one hundred feet in length,) commenced last sea-on, has been completed, and is ready for the reception of GOARDERS; and a number of Cottages, or the use of samilies, have been erected convenient to the boarding our trees!

apartment.

These SPRINGS consist of White, Blue and Black Sulphur, Chalterate, Limston and Slate, all laving their fountains within a circumference of thirty yardsithe work of Nature's own labratory. They send forth a sufficient quantity of pure water to supply many thousands of persons daily. They are situated in a flat, or rather bain, the ground gradually rising to the south and east until it reaches the western base of the Mansanutien, from which is presented to the eye of the beholder one of the most enchanting landscape views in the country. To the south, south-east, and east, there are a number of mounds, rising up at distances of from 25 to 160 yards, and from 25 to 160 feet above the level bottom in front and to the north-west of the Springs. Many of these elevations can be approached from the east or rear, by a gentle ascent. The Fort Mountain, with its picturesque scenery, its jutting apurs, its deep ravines, and its loty peaks, presents a panorams, which, for boid outline and pleasing variety, is is unsurpassed by any mountain scenery in Virginia. Indeed, the scenery presented to view from the summits of the Mansanutten and Fort Mountains, embracing the Page and Wavren and Shenandosh Valleys, misst be seen to be appreciated.

In addition to the Springs proper, there are a number of artment.

the Mansanutten and Fort Mountains, embracing the Page and Warren and Shenandoah Valleys, must be seen to be appreciated.

In addition to the Springs proper, there are a number of others in the vicinity, the principal of which are: 1. The celebrated Mountain Spring, 160 yards distant; 2. The Cold Spring, a short distance from this; 3 Immediately, above is a Chalybeate, sending forth a limpid stream; 4. To the nouth from the Springs, about three-quarters of a mile, gushing from the mountain side, is the Sweet Chaly-beate Spring. The new Spring recently opened amid the beautiful group of willows that shade the Sulphur Springs, and which is believed to possess peculiar medicinal qualities, completes the list.

Visitors coming from the North or East, can enter the picturesque valley through the narrow passage formed by the proximity on the mountains, about tweive miles to the north-east from he Springs. The rugged grandeur of this natural defile, the rocks towering to the very clouds, strikes the traveller with awe and admiration. On a striving at the Springs, he invalid has at once withdraws from the cares and perplexities, tolls and momotony of the busy world, and may recuperate his exhausted energies by quaffing the pure 'waters that incessantly flow around him, and partaking of the rich viands that are daily prepared for the nourishment of his frail body.

We will stafe, for the benefit of those who may not be aware of the fact, that we own a large firm stisched to the Springs, where persons can have their horses pastured or the learn will be furnished with the choicest Liouous.

Mesara. Sands, Gentlemen:—My little daughter was afficted for a long time with 800e Head and Eyes, and by using your Sarsajarilla, was perfectly cured, other medicines and Sarsaparillas having failed to relieve her. Having used it and tested its efficacy, I now confidently recommend it in preference to any other, as it seems to possess properties not contained in any other preparation; and I find that purchasers after they have used it, invariably want the same article again, whenever they require a medicine nor which this is recommended.

THE character of these Sales, in St. Louis, was before so well established, that any further test or proof of the fact of their being superior to all others, would have been unnecessary; but in order to accommodate Mr. Hall, the patentee and maker of "Hall's Patent Concrete Sales," which has burnt up all other makes of any note in the United States, (Wilder's patent included.) we took up his challengs and the result is given below by the Committee who super-intended the burning of the Sales. We only regret that they were not left in the furnaces two hours longer.

B. R. VIOLETT, & CO., Sole Agents for the Manufacturers, No. 13, Levee, and No. 35 Com. Street

The undersigned, a committee appointed by E. Hall, on behalf of Hall, Dodd & Co., of Cincinnati, and Messra. R. R. Violett & Co., as agents of Messra. Burke, Barnes & Go of Pittsburg, to test the fire proof qualities of the safes made by their respective principals—report, that we have this day subjected a Safe of each manufacture, of similar size, which had been in use five years, inovens to a fire made with dry oak wood, and Pittsburg stose-coal, for the space of five and a half hours, and during that time, we believe the heat applied was far greater than that in any ordinary confingration—that at the expiration of that time, on taking the safes from the furnece, and cooling them down, we found that their on casting on both was in places entirely burnt off, but that the books and papars entirely uniquired, except alightly by the water used in cooling off.—This we found to be the case with both safes, and the only perceptible difference in the appearance of the interior was that the varials on the wood work of Burke & Barnes' safe was entirely uniquired, while that on Hall, Dodd & Oo.'s, was blistered and blackened. In conclusion, we would remark, that from the result of this test, we have no heating from in recommending the safes of both parties to the confidence of the pablic.

Blackcood's Edinburgh Magazine, (Tory.)

These Reprints have now been in successful operation in this country for the this powers, and their circulation is constantly on the increase notwithstanding the competition they encounter from American periodicals of a similar class and from numerous Ectacrics and Magazines made up of selections from foreign periodicals. This fact shows clearly the high estimation in which they are held by the intelligent reading public, and affords a guarantee that they are established on a firm basis, and will be continued without interruption.

Although these works are distinguished by the political shades above indicated, yet but a small portion of their contents is devoted to political subjects. It is their literary character which gives them their chief value, and in that they stand confessedly far above all other journals of their class. Blacknood, still under the masteriy guidance of Christopher North, maintains its ancient celebrity, and is, at this time, unusually attractive, from the serial works of Bulwer and other literary notables, written for that magazine, and first appearing in its column both in Great Brittain and in the United States. Such works as "The Caxtons" and "My New Novel," (both by Bulwer,) "My Peninsular Medal," "The Green Hand," and other serials, of which numerous rival editions are issued by the leading publishers in this country, have to be reprinted by those publishers in this country, have to be reprinted by those publishers from the pages of Blackwood, after it has been issued by Messra. Scott & Co., so that Subscribers to the Reprint of the Magazine may always rely on having the earliest reading of these fascinaling tales.

Wild Cherry has long been known to possessimportant medicinal properties. This fact is familiar to every matron in our land, and Physicians often prescribe it in different forms for a variety of complaints. Tar, also, has been equally noted for its virtues; and some physicians, whose names are familiar to the whole country, have gone to far as to declare that even consumption could be cured by that clone. In other hands, again, it was nearly valueless, owing to doubt, to their ignorance in preparing and administering it—a difficulty now entirely obviated by patient experience and long experiment.

CONSUMPTION CURABLE!

Robert Sanderson, Justice of the Peace in Rush Creek township, Fairfield county, Ohio, and brother of "Major General Sanderson," an officer in the war of 1812, cured of Consumption by the use of "Wistar's Balsam of Wild Cherry."

Bear Sixt—As I consider that my life has been greatly prolouged by my being cured of Consumption by the use of "Dr. Wistar's Balsam of Wild Cherry." I will state the symytoms of my case, that others similarly afflicted may be induced to try this invaluable remedy. I experienced great difficulty in breathing; had the hectic fever with violent flushes of beat and frequent cold chills, with severe pain in my side and breast accompanied by a very bad cough; was very restless at nights, and had great. might sweats, perspiring, I should say, at least two gallons a night, wetting the bed cempletely through. I had not been able to work for scars. But I was much emaclated, and almost helpless when I commenced using Wistar's Halsam of Wild Cherry. Have used in all 15 bottles, land I am now free from all those complaints, for my health is good.

I am issue 35 years old, and have not taken any of the Halsam since 1816, because my health is so good as not to require any medicines. But, if I should have any return of my former symptoms, I should use Wistar's Balsam of Wild Cherry. I procured the medicine of Messrs. Fall & McCracken, your agents in Lancaster, Ohio.

The Slaker prepared "Yellow Dock." and the "Red

and Sarsaparilla," and persuade him, for his life's sake, to try it, and we have no hesitation in predicting his speedy restoration to health.

The Shaker prepared "Yeilow Bock," and the "Red Honduras Sarsaparilla," are the invaluable symedial agents from which Dr. Guysott's Improved Extract of Yeilow Dock and Sarsaparilla is formed, and Laboratory of Dr. Guysott has given us the virtues of these roots in their perfection. His preparation contains all the restorative properties of the roots, combined and concentrated in their utmost strength and efficacy.

Experiments were made in the manufacture of this medicine until it was found that it could not be further improved. Accordingly, we find it resorted to almost universally in cases of Hepatic, Scorbutic and Cutameous complaints for general prostration of all the vital powers, and all those tormenting diseases of the skin so trying to the patience and so injurious yo the health.

The following case of Benajah Hughes is one of the most astonishing on record. After forty years' sickness, two years' excruciating torture, the amputation of oneleg, and the body and himbs almost a mass of eating, putrifying discharging ulcers, to be cured by eight bottles of Guysott's Extract of Yeilow Dock and Sarsaparilla, is almost miraculous.

Tallapoosa Co., Ala., Jan. 2, 1852.
Dr. Guysoit—Dear Sir:—I send this to certify to you tha our Extract of Yellow Dock and Sarsaparilla has per your Extract of Yellow Bock and Sarsaparilla has per-formed one of the most wonderful cures on me that has ev-or been affected on man.

I have been afflicted for forty years with irruptions on my legs and feet; in 1848 they got so bad that had to go on crutches, and in 1849 I had one leg amputated above tho knee. In about 9 months after my other leg broke out in large cating and running sores from my knee to my foot,

same time my left and broke out in large running sores mearly to my elbow.

The misery that I have suffered for the met two years I cannot describe to you; I was in such agony that I never rested day or night. I was given up to die, and by the help of God I had made preparation for death, and had pointed out to my family the place where to bury my remains. rested day or might. I was given up to die, and by the help of God I had made preparation for death, and had pointed out to my family the place where to bury my remains.

In October last my son brought me one of your bottle-wrappers; I read II, and found record of some wonderful cures performed by your "Extract of Yellow Dock and Satesparilla." I seen and got two bottles of it, and commenced taking it. In two weeks to my great astonishment, my sores all become easy, and I could sleep at in light, a thing I had not done for two years. When I had taken six bottles, my sores had nearly all healed. My sores got well as if by enchantment. I have now used in all eight bottles of your "Extract of Yellow-Dock and Sarsaparilla," and I now consider myseif well. I am at a loss for terms to set forth the worth of this medicine, or to express my gratitude for what it has done for me. I must call it the Sayior of man from misery while living upon earth.

I entreat all of the afflicted to try this medicine, for I believe it will cure any known disease in the world.—Lay aside all prejudices and just try it, and proclaim its great worth to suffering mankind and entreat them to take it, for it will cure them.

My case is well enown in a large portion of South Carolina, Georgia and Alasbama, and if any should doubt the above cure, I invite them to call on me, and I will show thempthe scars. I can we found in Tallapoosa Co, Alabama one mile from Stee's Ferry.

Scrofula, Syphilis, Mercurial complaints, Cancer, Gangre re, Rheumalism, and a vast variety of other disagreea ble and dangerous diseases are speedily and perfectly cured by the use of this medicine.

Dadeville, Alabama, May 21, 1862.

Messrs. Scoville & Head:—This is to certify that about the first of February last, I was afflicted with three or four painful sores on and about the face, some of them as arge as a quarter of a dollar; they assumed the appearance of Cancers, and I was fearful they would terminate in Cancers. About three weeks since I cammenced taking "Hoctor Guysott's Extract of Yellow Dock and Sarsapa," and found immediate relief from its use. I have not taken quite two bottles, and the sores on my face are all healed up; and those on my neck are nearly so; and I truly believe they will be entirely well in a few days.

I cheerfully recommend "Dr. Guysott's Extract of Yel. low Dock and Savsaparilla" to persons afflicted with any kind of cuptions to cancerous sores. My general health is much improved by the use of the medicine.
